

LIDDS: Updated Research Report from Redeye

Redeye has today released an updated research report on LIDDS covering its expanded portfolio that now also includes a project targeting Toll-like Receptors (TLR).

The updated research report examines the development of Toll-like Receptors and the current market looking specifically at TLR9, the focus for LIDDS TLR research. The report also includes an update on Phase IIB Liproca Depot Study.

The updated research report is available at: <https://www.redeye.se/company/lidds>

Monica Wallter, CEO, will present LIDDS at the Redeye Investor After Work in Gothenburg on 25 April 2019.
