

## LIDDS to evaluate a possible listing of the company's shares on Nasdaq Stockholm's Main Market during 2020

---

**STOCKHOLM – LIDDS (Nasdaq First North: LIDDS) announced today that the company will evaluate a possible listing of its shares on Nasdaq Stockholm's Main Market during 2020 and will engage advisors to explore this potential relisting.**

LIDDS is in a strong growth and expansion phase with several key projects in clinical and pre-clinical phases, including the Phase IIb Liproca® Depot study, the Phase I NanoZolid®-docetaxel study and preclinical programs in immuno-oncology.

A transition from Nasdaq First North to Nasdaq Stockholm's Main Market can increase LIDDS' visibility both for partnering and from a capital markets perspective.

-We see a listing on Nasdaq Stockholm's Main Market as a natural next step in the company's development. A move to Nasdaq Stockholm's main market can contribute to increased interest from a broader investor base while at the same time increasing visibility for partners, both in Sweden and globally, says Monica Wallter, CEO, LIDDS.

-It is clear that our shareholder base has developed significantly in recent years, both in terms of number of shareholders that we have as well as now having larger and longer-term institutional and private investors, says Jan Törnell, Chairman of the Board of LIDDS.

-It is logical now to evaluate a listing on the main market while continuing this development, says Jan Törnell.
